

Container Weight Verification

Booking Number:

Date:

I request carrier to weigh the container(s)

Container Number	Weighing Method	Container Tare Weight (KGM)	Cargo Weight (KGM) (Includes Packing/Dunnage)	Gross Container Weight (KGM) (Container Tare + Cargo Weight)

Shipper/Exporter:

Name & Address:

We hereby certify the VGM (Verified Gross Mass) data as listed above to be true and accurate, the VGM meets applicable national certification and calibration requirements and is thus fully according to SOLAS chapter VI, part A, regulation 2 – cargo information. Verification is available upon request.

All/any amendments, updates, and/or corrections to the verified weights have to be communicated and submitted to the responsible SAMSKIP department immediately and without any delay. We understand and confirm that missing, incorrect and/ or belated VGM statements may result in non-acceptance of the shipment by warehouses, stevedores and/or the vessel operating ocean carriers and a delay in the originally planned schedule. Any additional cost caused by delay due to non-acceptance of the shipment by the carrier (or his agents) to be covered by VGM declaring part (as undersigned below).

The verification of the gross mass can be achieved by either of two methods, (Method 1) - Weighing the packed container; or (Method 2) - Weighing all packages and cargo items, including the mass of pallets, dunnage and other securing material to be packed in the container and adding the tare mass of the container to the sum of the single masses.
